PROFESSIONAL SUMMARY

Motivated and committed entry-level cybersecurity professional with a strong foundation in cybersecurity fundamentals, networking, threat awareness, and IT support basics. Recently completed introduction-level training in Cybersecurity and now actively developing practical skills in system security, incident response, and log analysis. Looking for beginner-friendly opportunities such as Cybersecurity Trainee, SOC Analyst Intern, IT Support, or Cybersecurity Assistant roles.

SKILLS

Cybersecurity Skills

- Cybersecurity fundamentals
- Network security basics
- Incident response (beginner level)
- Understanding vulnerabilities and threats
- Cyber hygiene & basic system hardening
- Log monitoring basics
- Security awareness & risk understanding

Technical Skills

- Linux basics
- Windows OS security basics
- Wireshark (beginner)
- Nmap (basic scanning)
- Basic SIEM understanding
- Command-line basics

Soft Skills

- Problem-solving
- Communication

- Attention to detail
- Teamwork and collaboration
- Fast learner

EDUCATION

Introduction to Cybersecurity — Completed

Institution: Moringa School (2025)

Topics: cyber threats, networks, security principles, safe computing, basic tools.

EXPERIENCE / PROJECTS

Cybersecurity Fundamentals Lab Practice – Personal Projects

- Basic network analysis using Wireshark.
- Simple network scanning using Nmap.
- Identifying common vulnerabilities and system hardening.
- Incident response simulations and documentation.
- Linux terminal navigation, permissions, configurations.

IT Support Assistance (Informal Experience)

- Assisted students and instructors with technical troubleshooting.
- Helped resolve login issues, slow systems, connectivity problems, software installs.
- Supported classroom cybersecurity tools and labs.
